Direction (Question Nos. 2-8) : Read the above passage carefully and answer the following questions in your own words:

“Financial literacy is the foundation of responsible living in modern society. It refers to the ability to understand money, manage expenses, and make informed financial decisions. A person who is financially literate knows how to budget income, save regularly, and avoid unnecessary debt. One of the most important aspects of financial literacy is retirement planning. As life expectancy increases and medical costs rise, individuals must prepare for a future where they may no longer earn a salary. Retirement planning requires discipline, foresight, and consistent saving. Those who ignore it often face insecurity and dependence in old age. On the other hand, those who begin early and invest wisely can enjoy independence and dignity after leaving the workforce. Financial literacy also teaches the difference between needs and wants, encouraging people to spend carefully and prioritize essentials. By cultivating habits such as maintaining an emergency fund, investing in secure assets, and contributing to pension schemes, individuals safeguard themselves against uncertainty. Ultimately, financial literacy empowers citizens to live confidently, strengthens families, and contributes to national stability. Without it, even high incomes can be wasted, but with it, modest earnings can be transformed into lifelong security.”

2. What does financial literacy refer to? (2)
3. Why has retirement planning become more important today? (2)
4. What happens to individuals who ignore retirement planning? (2)
5. List any two habits from the passage that can safeguard individuals against uncertainty. (2)
6. What does financial literacy ultimately empower citizens to do? (2)
7. Find words from the passage that mean the following: (5×2=10)
 - (a) The ability to predict future needs
 - (b) Freedom from reliance on others
 - (c) Respect and self worth
 - (d) Acting or done in the same way over time; regular and steady.
 - (e) Gives someone the authority, confidence, or strength to do something.
8. Using the five (5) words you identified in passage above, compose original sentences (not taken from the passage): (5×2=10)
